

Visa's Money Tips Checklist

Going to London for the 2012 Olympic Games?

Here are things you need to know.

Remember

As a Worldwide Sponsor, Visa is the only payment card accepted at the Olympic and Paralympic Games and the only card accepted at all venues of the London 2012 Olympic and Paralympic Games for any official London 2012 related transactions.

1 | To get a Visa debit, credit and prepaid card visit your bank or go to www.visa.com/globalgateway.

2 | Remember to notify your issuing bank or financial institution that you will be travelling and that you will be using your Visa debit, credit and prepaid card abroad to avoid any issues when transacting.

3 | Contact your issuing bank about travel-related benefits for Visa cardholders.

4 | Register for sms notification with your specific bank, or your bank's transaction notification service. This allows you to track transactions on your account.

5 | While you're travelling, set up automatic bill pay for your credit card and make sure you have sufficient funds in your debit account.

6 | In case of an emergency, keep records of your account numbers and PINs (personal identification numbers) in a safe and secure place. Never keep your PIN in your wallet, or with your Visa cards.

7 | If you lose your card, report it to your issuing bank or financial institution immediately! If you don't know their phone number, contact Visa's exclusive Global Customer Care Assistance freephone hotline, **0800 89 1725**.

8 | Look for the Visa or PLUS logo on ATMs or a point-of-sale to ensure international payment cards are accepted. To find the nearest ATM visit www.visa.com/atms.

9 | Always have a small amount of local currency (GBP), plus a Visa payment card on you while travelling.

10 | Carefully review your payment card statements and contact your issuing bank or financial institution immediately if you see any suspicious or incorrect charges.
